

INCENTIVES TO ENROLL

For those who want a little more incentive than just the benefits of the curriculum and the empowerment from the overall experience, we offer these incentives FREE for 3 months after enrollment:

- Referrals for employment or academic admissions.
- Resume template and editing for job applications.
- Internship opportunities with Learning Life.
- Email hotline.
- Mentorship after the program is completed. Mentorship is focused on assisting the member with real life processes and tasks.

Members can earn \$20 for every new member they refer to Learning Life!

Get in the Game!

Introducing Young Adults
to the Real World

Learning Life is an online and community program to assist parents in preparing their teenagers to grow into young adults – adults who will be economically wise, socially responsible, business-minded leaders of the future.

They will have the knowledge to mold the destiny of our retirement, our grandchildren's government and their grandchildren's ecosystem.

What is Learning Life?

Learning Life is an online program offered to teens and young adults, to teach them life skills necessary for maturing into wise adults who contribute goodness to society.

As a parent, are you ready to help your teen tie together the knowledge they've learned in school, so they can apply it properly to the demands of the real world?

We guide and mentor our members through complex decisions, as well as basic day in, day out responsibilities of adulthood. All of which contribute to the foundation they are building to support the rest of their lives.

Get in the Game!

Learning Life will help lead these young adults toward a balanced life in areas of Finance; Career; Home & Auto; Health & Safety; Time & Stress Management; and Leadership.

Who Enrolls in Learning Life?

- Teens & Young Adults

Who Can Purchase the Curriculum?

- Youth Organizations
- Parents who prefer to teach their teens on their own, using Learning Life material.

Courses are administered online. The primary learning method is **hands-on projects** designed to be interactive with a Learning Life evaluator; with the member's family or friends at home; and many are to be completed independently.

All projects are modified to fit the individual's life specifically.

Prices vary per course; please visit the website to see an up-to-date syllabus!
